ABT ventile	ABT - VALVE CAPS 4 valve caps with ABT logo	ANA000010	20,60	C

On all vehicles built from Nov. 2014 a tire pressure control system is standard. In general there are two different systems.

1. Indirect measuring tire pressure control system: In this case no sensors in the wheels are needed due to the measurement of the tire diameter through the antilocking system.
2. Direct measuring tire pressure control system: In this case for each wheel a tire pressure sensor will be needed. There will be additional cost for ordering an ABT complete wheel set.

When ordering a complete wheel set please indicate if your vehicle uses a direct or indirect tire pressure control system.

ABT AUDI A3 LIMOUSINE (8V0) FROM 08/13

	DESCRIPTION	ORDER NO.	PRICE IN EURO	
			excl. VAT

			563,03	
	ABT - ANTI-ROLL BARS for front- and rear axle suitable for all vehicles based on the platform MQB, with all wheel drive and multi-link rear axle assembly incl. axle alignment	8S005004300	424,37	C
			563,03	

Restrictions may apply for ABT suspension products in terms of installation or set up on the serial car. Please check if there will be any limitations for your vehicle at the ABT configurator, get in contact with your ABT partner or speak to ABT Sportsline directly.

Higher costs for the installation of the ABT-suspension may arise due to additional set up costs for electronical equipment (like automatic cruise control, active lane assist, active side assist and others). These costs are not included yet in the installation. The instructions of the manufacturer have to be obeyed.
